●

 Section matched

●

 Code format valid

●

 Reviewer pending

Failure cases stay visible;
nothing is silently submitted.

Evaluation questions

- 01

Evidence accuracy

Does the cited page and sentence support the proposed concept?
- 02

Reviewer time

How long does accept, edit, or reject take versus the current process?
- 03

Exception coverage

Which high-cost failure modes remain unsupported or ambiguous?

Next step

Bring one manual chart-review step. KamiBridge will map a safe 10-day evaluation.
